SECTION 03

OUR STORY

The story of **MANNIUM CASUALS** began in 2026 with a clear realization by founder **Muhammed Nishad**: the contemporary watch market was split between overpriced luxury items and low-quality mass-market alternatives. There was a glaring need for a trustworthy platform offering authentic, elegantly styled timepieces at fair and realistic prices.

Driven by a passion for watch craftsmanship, Nishad established MANNIUM CASUALS to bridge this gap. What started as a focused selection of classic and casual models quickly evolved into a multi-category store featuring automatic mechanical watches, stainless steel dress models, and high-durability sports chronographs.

INSPIRATION & ETHOS

Every watch in the MANNIUM CASUALS lineup is selected with attention to aesthetic balance, structural integrity, and movement accuracy. We view timekeeping not as a routine necessity, but as a celebratory art form that connects individuals to their achievements.
